

The Maryland Department of Agriculture (MDA) has notified the Town of Colmar Manor the scheduled spray night will be TUESDAY. Spray season begins on May 29th and is anticipated to end on September 17th. Spraying will begin after dark and may continue until midnight or later. MDA does not conduct spray activity during daylight hours. If you see a truck in the community spraying during the day, it is not the State of Maryland.

As a precaution, MDA advises residents to stay inside their homes and close their windows while the spray truck is in the vicinity, bring in any pets, and remain in the home for 20-30 minutes after the spray truck has passed by. If there are people outside when the truck passes by, no spray will be released, and the truck will not make another pass down that street.

The spray schedule will rotate every 3 weeks. This means the community may or may not be sprayed each week. The frequency will be determined by surveillance data collected, and complaints received.

For more information on the MDA Mosquito Control program and how to opt out of the spraying, please visit the MDA website **HERE**
